SPEDITION

ALWAYS ON THE RIGHT TRACK

Your transport & logistics
expert since 1898

Experience counts Bruhn Spedition since 1898

As your partner and leading service provider for intermodal transport solutions, we combine both. In doing so, we ensure that your dry-bulk as well as liquid and packaged goods reach their destinations in an efficient, safe and fast way. With tailor-made and sustainable logistics solutions: **Smart logistics that keeps you ahead.**

At Home in Europe

With locations in Lübeck, Antwerpen and Helsinki we are represented in important seaports near Key-European regions. Our network and integrated cooperation with local, specialised partners allows us to bring your goods to their destination in an intermodal way.

Whether Nordic, Baltic, UK and Ireland or Southern Europe; we are always nearby. Near to you, near to your markets and near to game-changing infrastructure.

Our services

Always on the right track

Every journey starts with the first step. For us, this means listening to your needs and analysing the important details of your project. Only then can we start developing the optimal solution for you. A solution that is tailor-made, innovative, planned and implemented down to the last detail. Nothing is left to chance. For the transport itself we use our own fleet of specialised trailers, bulk- and tank-containers. Our commitment: Top service in all respects.

Dry Bulk

Liquid Bulk

General Cargo

Warehouse Solutions

Business units

Accomplished solutions that bring you forward

Dry Bulk

Granules or powder – whatever dry-bulk product you want to transport we have the ideal container for you. Our Dry Bulk division deploys its own fleet of intermodal bulk containers of all types: from bag-in-box containers to aluminium-van-boxes and pressure containers, they come in different sizes and with different volumes. Specialized unloading equipment compliments our services.

- Versatile pool of 3,500 Bulk-containers for all types of dry-bulk cargo (bag-in-box, van-box, pressurized)
- Vast network of integrated partners throughout Europe
- Bespoke intermodal supply chain solutions (forward stock, VMI)

Liquid Bulk

With our versatile fleet of 20' and 26' intermodal tank containers, we are your experienced and reliable partner for the transport of liquid foodstuffs and industrial products. The tanks are designed for high-density liquids as well as for particularly sensitive liquid goods. Within the food sector we distinguish ourselves by a high degree of specialisation in temperature-controlled products.

- Specialised fleet of 500 super-insulated Tankcontainer in various sizes (21,000 - 35,000 l)
- Indirect glycol heating system for sensitive, temperature-controlled goods
- Compliant with all applicable food standards and requirements
- Bespoke intermodal supply chain solutions

General Cargo

Whether you need a FTL or LTL solution or want to transport temperature-controlled goods, our General Cargo department develops the optimal transport solution for you and ensures that every load is transported properly. If required, we can take over the entire management of your supply chain – we are your one-stop shop.

- Modern fleet of intermodal curtain-siders and thermotrailer
- Daily departures from / to the Nordic and Baltic countries
- Bespoke supply chain solutions (pool-point distribution, cross-docking, intermediate storage)

Warehouse Solutions

26,000 m² of logistics space and 10,000 m² of modern warehouse in Lübeck: Our warehouse and logistics center is equipped with the latest technology and ensures tailor-made warehousing. Positioned in one of the leading trimodal platforms in Europe, the warehouse can be your hub between continental Europe and the Nordic countries or Baltic states.

- Floor-heating CO₂ neutral warehouse space
- Narrow-aisle multi-bay racking system with trilateral stackers
- Trimodal connection between central Europe and the Nordic and Baltic regions
- Broad range of value-added-services (pool-point distribution, pick-and-pack, cross-docking)

Our commitment

On the right track for the future

Just satisfying you is not enough for us. We want more. We want to inspire you! Right from the start we put you and your wishes at the center of everything we do. We get to the bottom of things before we present ideas and solutions. These are not just ready-made but instead fully customised to your needs with know-how and passion. This way you can be sure to always receive the most efficient, safe and sustainable logistics solution for your individual requirements.

Green logistics

All ways

Playing in the premier league of logistics means being an example in the care and protection of our environment. For decades, we have actively contributed to shaping the European intermodal landscape. Through an inventive combination of road-, sea-, and rail transport, we offer eco-friendly solutions that actively result in reducing CO₂ emissions. Proof of our commitment in 2024: More than 52,602 tons of reduction in CO₂ emissions. Are you committed to sustainable resource planning and eco-friendly logistics? Then we can be your partner on an equal footing.

QHSE

Without compromises

Absolute safety in every respect – this is our most sacred principle. The health and safety of our employees and our stakeholders is our top priority and ensuring them is worth every effort to us. That is why we regularly have our systems and processes evaluated by independent companies. We hold all the important quality, environmental and safety certificates and comply with all current food, feed, pharmaceutical and chemical standards.

It is not in the stars to hold our destiny but in ourselves
